FICHER

PHONOLOGIE

Travailler sur la rime en maternelle

Fichier créé par Anne-Marie Samoun annemariesam@free.fr

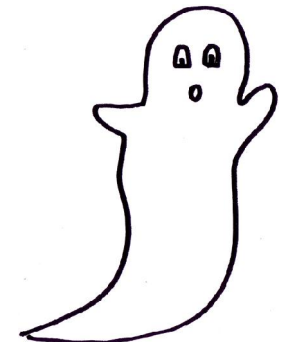

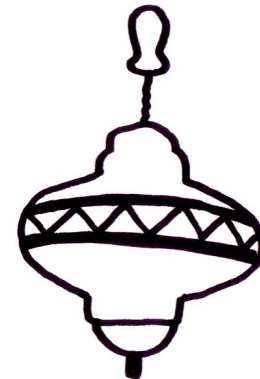

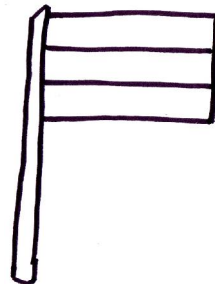

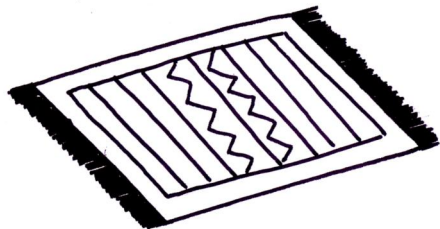

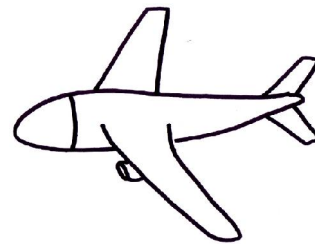

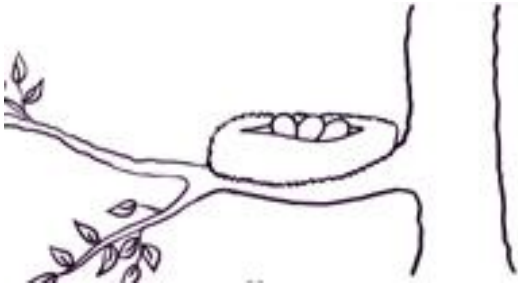

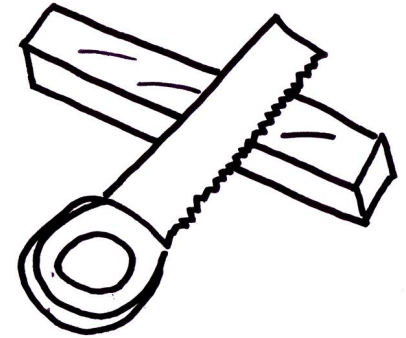

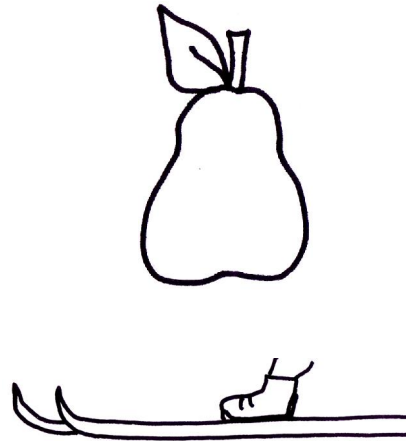

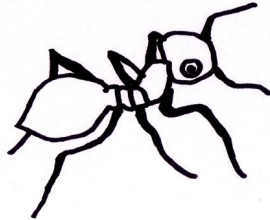

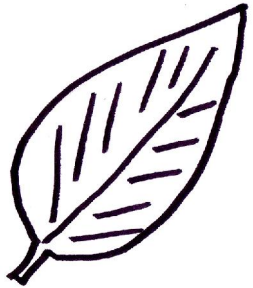

La phonologie est la base de l'apprentissage de la lecture. Prendre conscience des sons est donc primordial dans l'approche des jeunes enfants de la lecture. Ce fichier fait travailler la reconnaissance de la dernière syllabe des mots et familiarise les enfants avec les rimes. De multiples jeux sont possibles à l'oral : apprendre des poèmes, faire des jeux de reconnaissance ou d'association, mais souvent, ce sont les enfants les plus rapides ou les plus performants qui en retirent le plus de bénéfice. Peu d'outils sont disponibles pour une approche plus autonome ou d'évaluation. C'est le but de ce fichier, qui par le biais d'images facilement reconnaissables et à travers un vocabulaire simple, permet aux enfants de faire à leur rythme les associations d'images finissant par la même syllabe.
